

Khaled Ghannoum

Platform

Hi, my name is Khaled Ghannoum and many of you probably know me as the current CSES first-year rep. I'm running for the Aerospace representative next year. My goal is to make sure all the Aerospace Students are represented on the council, by making sure their voices and feedback are heard and transmitted.

Fun Facts About me:

1. I commonly wake up in the middle of the night to watch rocket launches
2. I own a piece of a rocket (ask me the story)
3. I could talk for anything for hours
4. Experienced at putting ring sizers back together
5. Did I tell you I love rockets?
