

Sup!

If you somehow don't know me yet, I'm Taytum George. I was last year's VP Social at CSES, and after a full year of refining and perfecting my ability to host all manner of events as social, I am looking for your vote, as I am running this year for Vice President Academic!

If elected I make the same promise to you that I have already fulfilled once as Vice President Social: Running better CSES events than ANY of my predecessors ever had before me.

I have all of the experience in the world when it comes to event hosting for CSES, and my track record speaks for itself really - in a single year, I have brought no less than 3 events (Engfrosh Reunion, Engbowl, and Comedy Night) completely back from the dead and revived them to be fun, functional events once again, I fulfilled my main campaign promise of fixing Charity LAN (which if you didn't notice, was ABSOLUTELY BANGIN' this year!), raised more money in a single year for charity than (I think) any VP Social ever before me, and all-in-all went WAY way far above and beyond the duties of a regular VP Social, to provide the best for the greater C-Eng Community (which I care deeply about) at every opportunity. If elected as VP Academic, I promise you that I will put in that exact same level of commitment. I will host the best C-Eng-C, NEM, and Pie day you have ever witnessed, I will host some NEW events and initiatives, and will go far above and beyond the usual purview of a VPA.

Thank you.
