

# ABOUT ME

**LIZ ANTIFAVE (THEY / THEM)**  
FOR AEROSPACE REPRESENTATIVE

Hi! I'm Liz, a current first year in aerospace engineering, and I would love the opportunity to be your Aerospace Representative on the CSES council! I am currently a volunteer at CMAS and Leo's and am very excited to continue to get involved in the C-Eng community next year. Designing new stream specific merch and establishing a better line of communication to students about information and resources relevant to your program are a few things I would work on as your counselor. I would love to hear from you and look forward to representing you next year!
