Passport collection will be advertised sometime in March, so keep your eyes and ears open! If you have any questions for Flightsuit Committee throughout the year, find one of them in the hall or shoot an email to

flightsuits.committee@gmail.com

Passports will be evaluated at the end of the school year. Those receiving flightsuits will be informed of the date, time, and location for the top-secret FLIGHTSUIT CEREMONY, where all those with current flightsuit status will choose the new Flightsuit Committee for the upcoming year.

The flightsuits themselves will be handed out to successful applicants at the beginning of the following school year.

What's the Flightsuit Program?

The CSES Passport Program is an initiative with a big goal. It serves to recognize and reward the students who are willing to join and participate in the engineering community beyond the classroom.

The main benefit of the Passport is that it provides both you and Flightsuit Committee with a quick summary of all of your participation over the past school year. The Passport contains two major categories into which your involvement can fall:

SOCIAL and **PARTICIPATION**

The first section, **Social Stamps**, is for events hosted by CSES and Flightsuit Committee.

The second section, **Participation Stamps**, lists all of the groups, clubs, societies, conferences, and activities in which you can take part/join! Many of them involve taking a unique role within the engineering community.

The Passport Program is ever-evolving. If you have suggestions on potential improvements, please talk to the CSES executive or council member of your choice. You can also contact Flightsuit Committee at flightsuits.committee@gmail.com.
