

Hey C-Eng!!

Looking for a new VPSI??

YOUR NEXT
VPS STUDENT ISSUES

DIEGO IS IN

Hi, I'm Diego Ponce-Solano (he/him), a 3rd year Aero D campaigning to be your next VP Student Issues!

You deserve your voices to be heard, and it's our responsibility to make you aware of how CSES can help! As VPSI, I aim to improve our outreach by expanding on current VPSI-led events like Feel Good and Sustainability week with new events, new patches, and all within a minimal budget.

As a student I understand and share the struggles that come with academic life and the struggle to advocate for your academic success. As VPSI I will create easy to access resources and use my outreach to encourage more students to engage with each other and their engineering government.

Where Student Issues currently sits within CSES, the groundwork has been laid out to create something really freaking great, so I would love your support to be the one to build!

Vote for me this coming election season to be your next VP Student Issues!
